Carol Schiffer gave the welcome to mothers and Mrs. Walter Carlson responded. Rosine Marsack read a poem in honor of all servicemen's mothers, written by a service man who had given it to Hubert Bixler. The junior choir, accompanied by Mary Mark, sang "I'll Be a Little Sunbeam." The meeting was closed with the group singing "God Be With You Till We Meet Again."

The Woman's Guild of St. Peter's church gave their banquet on May 9 and the dinner was served by the men of the church.

POPPIES HONOR OUR WAR DEAD

"Wear a poppy to honor the war dead and aid war's living victims."

This is the appeal that will be made to everyone in Frankfort by the American Legion Auxiliary on Poppy Day, May 24, as announced by Mrs. Kenneth Oetter, Poppy chairman of Bob-zin-Swinford 1098 Unit of the Auxiliary.

The Poppy is a memorial flower, symbolizing the sacrifice made by those who died in the service of our country. Women who sell these poppies on the street corners are volunteers who receive no remuneration for their services. Over 3,000,000 poppies have been assembled by hospitalized veterans in Illinois and must be sold to the Public, if these veterans are to be made happy from the financial and spiritual gains of their labors. Happiness and hope are brought to these unfortunate lads, who answered their country's call to protect all Americans from aggression in World Wars I and II and the Korean situation. Now the public must answer their call.

Through the sale of these poppies we are remembering those who paid the supreme sacrifice, by aiding their living relatives and buddies with the proceeds from this sale, for all monies derived from the sale of poppies, after the veteran has been paid for assembling them, is used for service work among the veterans in hospitals and home, their needy dependents in institutions and at home and the widows and orphans of all deceased veterans. Hospitalized veterans receiving pay for assembling these poppies, feel that this money enables them to help toward the support and maintenance of their families and teaches them to carry on productive work again.

"This year we hope to see poppies over every heart as we honor the dead and aid the disabled on Poppy Day," stated Mrs. Oetter.

CARD PARTY

The Altar and Rosary society of St. Jude's Catholic church in New Lenox will sponsor a spring card party in the church hall Friday evening, May 16. The party will start at 8 o'clock. There will be prizes and refreshments. Everyone is invited.

They were matching hats of net. The bride's cousin, Joy Lynn Kastman, of Joliet, served as her flower girl. She wore a yellow formal with yellow roses in her hair. She carried a basket of white rose petals to be strewn in the bride's path.

Caterpillar Co. To Hold Open House at Joliet May 19-23

The doors of Caterpillar's Joliet plant will be wide open to folks from this area in the week of May 19 through May 23. And there will be plenty to see.

The five-day Open House will be the largest such event undertaken by a Joliet area industrial organization.

Hours for visiting by the public will be set from 9 a.m. to 9 p.m. on each day. The Open House is expected to attract thousands of people from throughout Northern and Central Illinois as well as from other Midwestern states.

The Caterpillar Joliet plant is located on Route 6.

As part of the arrangements for the complete service will be set up for care for children of those parents who cannot get baby sitters. Trained attendants will be available while Mom and Dad view the interesting and educational displays and exhibits. The youngsters can choose to watch continuous movies, use the sliding board and other play equipment or they can content themselves with games, building blocks, balloons and sugar cookies.

A huge 300-foot long tent, 60 feet wide, will add a carnival touch to the gala event. The tent will house modern scientific instrument exhibits and research displays.

Also housed in the tent will be a dining area where visitors can relax for coffee and donuts following the plant tour.

And, if you are a hobbyist, don't fail to get out to the Caterpillar Open House. A 9'x30' hobby house will exhibit almost two dozen unusual hobbies of Caterpillar Joliet employees. There'll be one on model trains, Indian lore, guns, foreign dolls and water color paintings.

Formal opening ceremonies are set for Monday evening, May 19, at 8 p.m. Mr. L. B. Neumiller, Caterpillar president will be the principal speaker. Music will be furnished by the Joliet American Legion championship band.

Firemen's Dance at Mokena Big Success

The Firemen's dance at Mokena last Saturday evening was a huge success, nearly 1000 people attending. It was held in the VFW hall and the large crowd taxed its capacity.

Everyone had a good time. Those who didn't dance, played cards or just enjoyed visiting with their friends and neighbors.

The main prize of the evening, an electric dryer, was awarded to Elmer Cooper; Mr. Glawe received the coffee maker, Robert DeForest the kitchen chair, and George Haehnlein the steak knives.

There were prizes awarded in the several card games also.

The community of Mokena can well be complimented, as everyone was glad of the opportunity to pay their donation tickets for the dance as in that way they knew they were doing their bit to help their own homes by assisting in the maintenance of their fire department. It is wonderful the way in which money comes to the firemen's treasury at such a time. As soon as they receive their tickets by mail many at once go directly to Harold Cooper, treasurer, and pay their portion.

Everyone feels they have a good group of men managing their fire department at Mokena, men who are continually on the lookout for improvements and above all, men who are trust worthy.

An interesting part of the project was completed recently when a crew of volunteer workers manned the sawmill of Otto Konow and sawed the floor joists for the new church building from oak trees cut from the Henry Burch wood lot.

The following men assisted with the work, Robert Shepherd Sr., Otto Konow, Sr. and Jr., Robert Burch, Reed Burch, Cloyd Roberts, Homer Marple, Bruce Anderson, and Arthur Shepherd. Pictures were taken while the work was going on and these will be shown on a screen later.

SUMMIT HILL CARD PARTY

A card and bunco party will be held in the Summit Hill school, Friday evening, May 16. All games start at 8 o'clock. Refreshments will be served after the games. Hostesses for the evening are Mrs. Laverne Conley and Mrs. Alma Lauffer.

Mrs. L. G. Bruder of Better Films Group On Luncheon Prog.

Newly elected officers of the Tinley Park Woman's club will be installed at the club's annual spring luncheon in Surma's restaurant at 12:30 Wednesday, May 21. Mrs. W. D. Lear, former third district president, will install Mrs. Dallas Webster as president; Mrs. Walter Gray as second vice president; Mrs. Omar Elcock, recording secretary, and Mrs. John Devlin, treasurer.

What might have been an especially serious fire in Tinley Park last Saturday evening was prevented by the good work and the quick response of the local fire department and those of neighboring towns.

About 7:30 o'clock Mr. Kindred of the Culligan Soft Water Service located next to the National Food store on north Oak Park avenue, saw smoke coming from the latter store as he was working in his store. He at once called the Tinley Park fire department who responded quickly.

It is thought the fire started in the rear of the store and quickly spread up into the space between the ceiling and the roof. Holes were cut in the roof in order to reach the fire.

Fire departments from Orland Park, Midlothian, Homewood and Oak Forest were summoned to assist. It is stated that only the efficient work of all these departments prevented the complete destruction of the building. The large glass sign plate of the store was broken.

Origin of the fire is undetermined and the damage to the stock is estimated at from \$30,000 to \$50,000. Damage to the building is about \$10,000. All the stock is being removed from the building and the manager Max Rauscher believes it will be from four to six weeks before the store will reopen.

The building is the property of the Elmore Real Estate company and is rented by the National Food company.

Arnold Medrow, member of the Tinley Park Fire department was injured when he was hit with a falling piece of glass as he entered the building. Several tendons were cut in the back of his left hand and it was necessary to remove him to the Ingalls Memorial hospital at Harvey. Several stitches were needed to close the wound. His hand was placed in an aluminum cast. He will be unable to work for three weeks.

A picture of the fire appears on another page in this issue.

N. L. Garden and Hobby Show June 3

The WSCS of the New Lenox Methodist church will sponsor a Garden and Hobby show on June 3rd. Doors will be open at 8 a.m. and a committee will be on hand to receive entries of both hobbies and garden products. All gardeners from Will County are invited to display their favorite blooms and vegetables. One section will be devoted to the children for exhibits of terrariums, dish gardens, nature collections and arrangements of flowers. A children's pet show will be held out of doors from 1:30 until 3 p.m. Ribbons will be given for the most interesting pets.

Besides enjoying a good fish fry, those attending the affair May 23 will be contributing toward a good project of civic pride.

This is a Will county project which consists of 16 Sportsmen chapters. They have already reclaimed 90 acres in the mine locality and have one lake there stocked with fish.

The money derived from this big fish fry will be used to convert the old strip coal mine area near Coal City and Wilmington into a lake. There is 400 acres in this area. The unsightly large mounds of waste from the mines are to be leveled; beaches are to be made and trees will be planted. The lake, which is to be named Will, for Will county, is to be well stocked with fish which will be a fisherman's delight. This will be a beautiful park whereas now it is an ugly spot on the face of an otherwise beautiful country side.

The following men assisted with the work, Robert Shepherd Sr., Otto Konow, Sr. and Jr., Robert Burch, Reed Burch, Cloyd Roberts, Homer Marple, Bruce Anderson, and Arthur Shepherd. Pictures were taken while the work was going on and these will be shown on a screen later.

Tinley Boy Scouts Honor Mother's Day

Troop 255 had a Mother's night at their meeting May 6 in honor of Mother's day. The troop committee bought a small gift for each boy to give their mother. The gifts were spoon rests in the shape of a fish. They were purchased at Mohr's Florist and Gift shop. Mohr's were very helpful in trying to select a suitable item for the gifts.

Each Patrol Leader had the boys in his Patrol give a demonstration.

Among the mother's who came to the meeting were Mrs. Kathryn Hartwig, Mrs. Dorothy Pennington, Mrs. Helen Erskine, Mrs. Nell Lucas, Mrs. Clarence Mercier, Mrs. Eleanor Simulcik, Mrs. Helen Redman, Mrs. Flossie Bailey, Mrs. Phyllis Darby, Mrs. Rose Brown, Mrs. Pursey, Mrs. Agnes O'Neill, Mrs. Sophie Trylovich, Mrs. Virginia Blount, Mrs. Helen Carlson, Mrs. Frieda Kuech, Mrs. S. McArtor, Mrs. Erna Goebel and Mrs. Harriet Carlson.

Scoutmaster Tom Mahoney explained starting a Women's Auxiliary for the mothers of the Scouts in troop 255. If any mothers are interested they can get more information by calling 4167.

The troop will be going to a district camporee at the Isaak Walton league in Homewood June 6, 7 and 8.

The troop will leave Saturday May 17 on a sealed order Scout-hike. Each patrol leader will receive a sealed envelope from the Scoutmaster containing orders written in Morse code that will give them the compass

reading to get to camp. Each patrol will have to decipher the code and take the compass degree readings themselves. There will be a race to see which patrol gets to camp first. Upon arrival each will make a sun dial and report the time it took to get there.

The troop has tentative plans for a Father's Day hike. All fathers can start looking forward to a meal in the woods cooked by their boy.

Any boy who is 11 years of age and would like to be a Boy Scout should have his parents get in touch with Scoutmaster Tom Mahoney at 4167.—Fran Mahoney, publicity.

VFW Aux. News

The first meeting of the Bremen Aux. 2791 with all the new officers present, was held May 5, in the club rooms. All new chairmen for the year were announced.

The hospital chairman for last year, Ann Wagner, did a wonderful job. She and her co-workers made a trip to Hines and Vaughns once a week working eight hours each time. She missed a few times due to illness, but still accomplished much.

Those interested in joining the VFW are asked to get in touch with our membership chairman, Genevieve Mattson who will give you an application blank for membership.

On May 23 we will have our annual poppy drive and we ask everyone to wear a poppy. Our workers will meet you on the street after 5 in the morning. Mary Maxwell is our poppy chairman.

If you know of a veteran or his family in need of help please let us know, because we are organized to help all veterans, in time of need.

Our ways and means chairman, Marge McClellan, is making plans for a busy year. The VFW Post and Auxiliary is giving a welcome home party for several of our returned war heroes Saturday, May 17. Any one wishing to meet these boys in person is invited to come to the VFW club rooms. Our next meeting on May 20 will be social.—Publicity Dept.

IH QUALITY IS MORE THAN SKIN DEEP!

Parts may look alike on the surface, but the true story of quality goes far deeper than that. International Harvester makes sure of that quality. Regular IH parts from the assembly line are examined with this 1,000,000-volt x-ray. It looks "under the skin", checks to protect IH standards of quality. This is only one of the dozen reasons why it will pay you to use IH precision-engineered parts for all of your McCormick machines.

HOW JUDITH NASH LOST 27 lbs. WITH AMAZING NEW APPETITE REDUCER PLAN

Ann Delafield, Famous Beauty Consultant, Reveals Dramatic Story of Her Easy, Natural Way to Lose Weight

Ann Delafield, who has helped more people lose weight than any other woman in the world.

"Judith Nash had tried reducing many, many times in her life but was never really successful," says Ann Delafield, renowned beauty authority.

"Then she tried the Ann Delafield Appetite Reducing Plan and discovered the wonderful secret of the Appetite Reducer. In an amazingly short time she slimmed down from 161 to a trim 134."

IT'S EASY—IT'S FUN

The story of Judith Nash can be your story, too. Now... a reducing plan is offered to you based on scientific laboratory research, and implemented by a vitamin protective capsule. If you are one of the thousands of women and men who have an overweight problem... the Ann Delafield Appetite Reducing Plan was designed to help you find slender beauty. It is the *easiest* way in the world to reduce because it's fun.

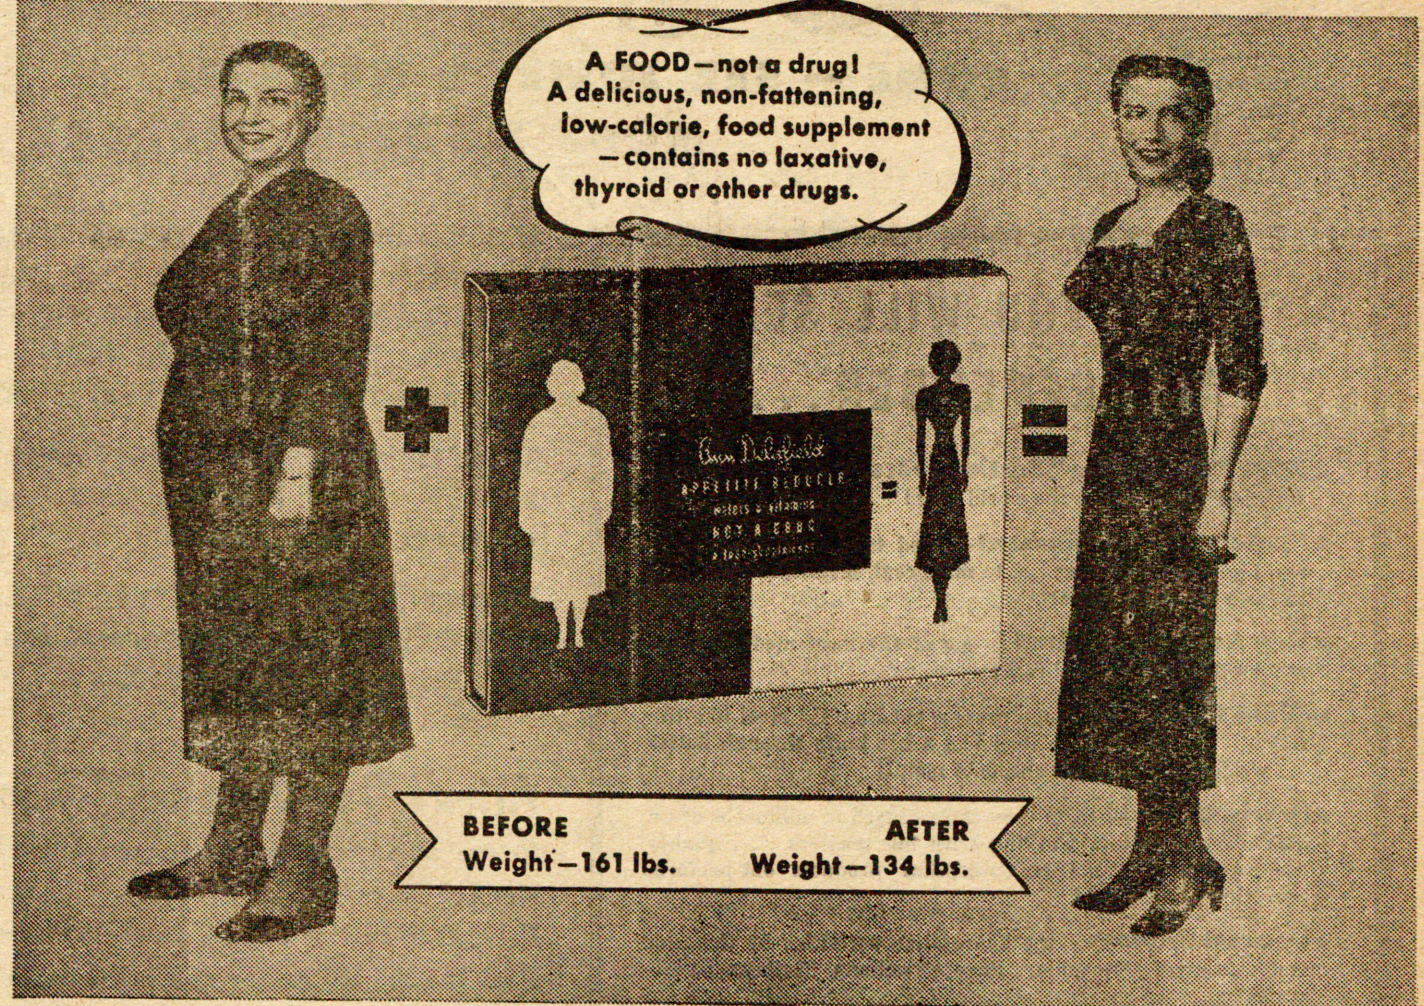

YOU CAN EAT YOUR CAKE AND HAVE "IT" TOO
If your figure isn't as perfect as you would like to have it... don't be discouraged. Perhaps you are one of the large army of women who have carried extra pounds for years... who have tried weight-reducing plans that have brought nothing but tears... who have punished their bodies with starvation diets. Now, at last, here's a scientific way to keep the slender beauty that's rightfully yours.

Your answer is the Ann Delafield Reducing Plan... an easy way to reduce that doesn't take the fun out of life. During Miss Delafield's forty years of experience in helping hundreds of thousands of women to lose weight, she has learned a great deal about this common problem. Most of her pupils have been recommended by personal physicians.

YOU DON'T COUNT CALORIES
All this work is done for you in the Ann Delafield Reducing Plan with generous, appetizing yet low-calorie menus. The secret of the amazing success of Miss Delafield's Plan is a scientifically produced... and delicious... wafer called the Ann Delafield Appetite Reducer. It's the greatest blessing a hungry person ever had! When you reach that time of day when you feel you need a snack for energy... you simply take the Appetite Reducer wafer. This wafer was conceived after years of practical experience and endless hours of consultation with physicians and dieticians.

In addition, your diet is supplemented by Ann Delafield Vitamin Capsules... carefully prepared by expert chemists to conform to the standards set down by the Food and Nutrition Board of the National Research Council.

DON'T PUT IT OFF ANY LONGER
If your doctor has told you that your excess weight is not due to a glandular disturbance or organic causes, start on your Ann Delafield Reducing Plan today. The complete package... containing the book, a 30-day supply of your Ann Delafield Appetite Reducer Wafers and Vitamins... costs just \$6.95; repeat package just \$5.95.

Judith Nash weighed 161 pounds and had tried again and again to lose the extra pounds that were making her self-conscious and unhappy. Then she tried the Ann Delafield Appetite Reducing Plan and wrote this to the famous beauty authority...

"Dear Miss Delafield... with the aid of your wonderful

Appetite Reducer I lost 27 pounds and never felt better in all my life. My doctor found my health perfect and is greatly enthused about your particular method of reducing. The Ann Delafield Appetite Reducer not only kept me from feeling hungry, but gave me more vital energy than I could get in any other way."

Judith Nash, New York *

What you get with the Ann Delafield Reducing Plan:

1. A 116-page book giving you Ann Delafield's new, easy Appetite Reducing Plan, including suggested menus and vital beauty tips.
2. A 30-day supply of Ann Delafield Appetite Reducer... not a drug but a delicious, non-fattening, scientifically produced supplementary food that includes low calorie Skim Milk Powder and Soy Bean Flour.
3. A 30-day supply of the Ann Delafield Vitamin Capsules... scientifically prepared according to the Recommended Dietary Allowances, Food and Nutrition Board, National Research Council in 1948 for women on a 2000 calorie or less reducing diet, except for the omission of Thiamine, which has a tendency to increase your appetite.

We were dismissed at 7:00 p.m.—Karen Perowski, publicity.

when you have Automatic Laundry Appliances!

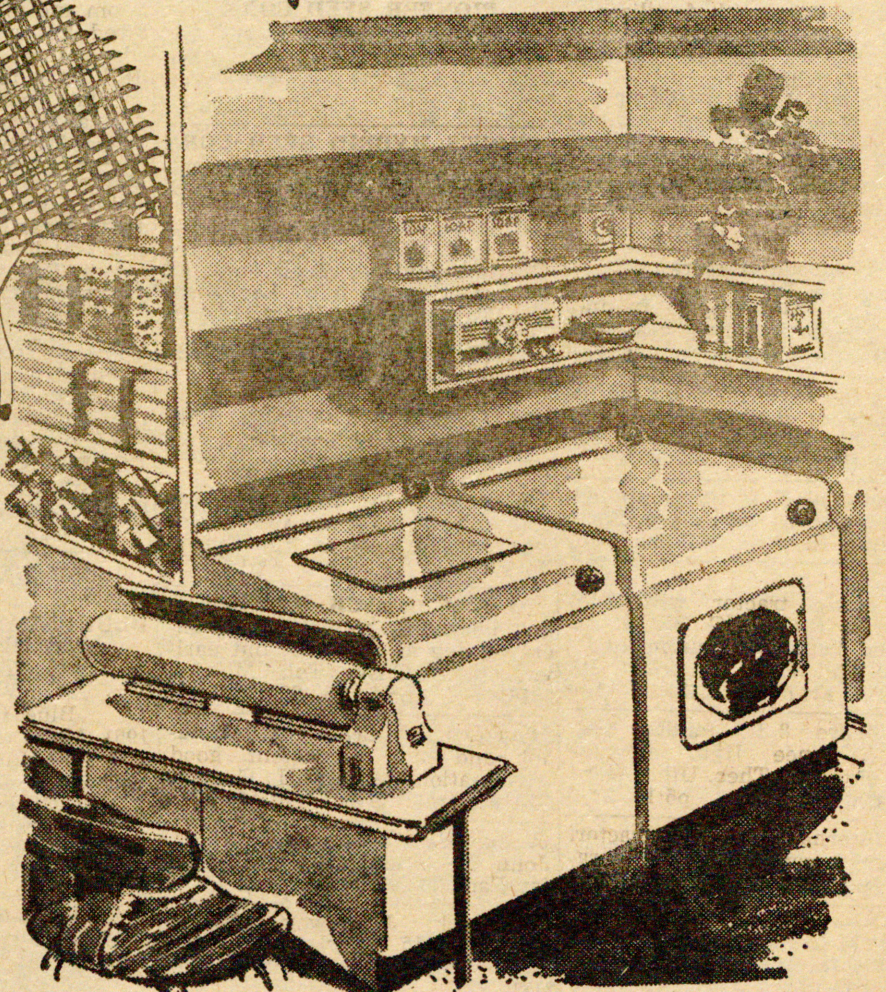

Your laundry practically does itself... when you have modern automatic equipment! To start your easy washday schedule you'll simply toss the clothes into your automatic washer... and set the dial. They'll be washed, rinsed, and spun while you sit down with a cup of coffee or stand up to the breakfast dishes.

Next, you'll drop the clothes into the dryer... and set the dial! Automatically they'll tumble dry, fluffy and sweet-smelling the way you like your laundry. Of course, the dryer automatically turns itself off, if you should want to leave the house while the drying's being done.

Last of all, you'll set the temperature dial on your rotary ironer and sit down while you polish off a stack of clean, perfectly-ironed clothes faster than you thought possible. There's your laundry, all done... and just about all you did was set the dials!

ICC Denies Public Service Gas Supply Increase

(CNS) The Illinois Commerce Commission Monday denied the application the Public Service Company of Northern Illinois requested which asked to increase the gas supply to industrial users.

The company had asked to use up to 500 therms per day for the industrial users, for purposes other than space heating. This figure would total 15,000 therms a month. Their previous limit was 4,000 per month for industrial users.

The commission, in denying the petition, considered that as of April 1 the company has 54,000 applications for heating in single family residences pending. Additional applications are pouring into the company at a rate of 4,000 per month.

The ICC observed that an increase of industrial gas would absorb all of the remaining pipe line capacity, and force the company to draw on its emergency supply of storage or other gas.

In the same order, the commission set up certain stipulations for applications to heat residences. Any residential customer who, on or after Sept. 1, 1951 has requested service to heat residential premises, will fall into one of three categories.

The first is "existing residences". That classification refers to any residence that is already occupied. The second, "new residence" means one that is fully constructed, partially constructed, or contemplated for construction.

The third is "projects" or group houses contemplated for construction by a builder.

Anyone making applications for one of the three classifications, must make that application in writing, according to the order. They will also have one year to install a furnace after the application has been introduced. Previously, individuals were allowed only 6 months to install the furnace after applying for heat.

Chemical Stump Removers No Good Says U. of I. Forester

It's easier than you think to remove tree stumps from your home grounds. But so-called "sure-fire" chemical stump removers simply don't do the job.

That's the report of C. S. Walters, University of Illinois forester, after testing several chemicals. None of them worked satisfactorily, even though some were advertised as "sure-fire." Acids were not tested in the Illinois work, but other experiments have shown that sulphuric and nitric acids are no good for this purpose.

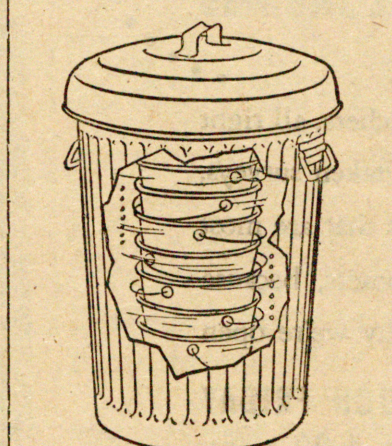

However, here are three ways of removing stumps which do work: You can rot them out, burn them out or dig them out.

Rotting is the cheapest and easiest and works any time during the year, but it takes a little time. Cut the stump at or below ground level, cover it with soil and keep the soil moist. You can speed up the rotting process by boring several vertical holes in the stump before you cover it with soil.

Keep Fire Buckets Ready!

FIRE pails, the simplest and oldest form of fire extinguishers, still are an effective method of fighting fires on the farm. Of course, the use of pails is limited to fires on which water can be thrown by hand. They are not effective on overhead fires.

A good way to keep the buckets always filled and ready is illustrated.

Place a large steel garbage can or barrel in a strategic location, stack several galvanized pails, one inside the other, into the container and fill it with water. The galvanized ware is recommended, as it will not rust.

In case of fire, each pail upon being pulled up is filled with water, ready for action.

This fire prevention plan can be carried on even in freezing weather. The following table shows the amount of calcium chloride per gallon of water that will prevent freezing at the indicated temperatures.

Temp. (°F.)	Lbs.	Temp. (°F.)	Lbs.
10.....	2 1/4	-20.....	4 1/4
0.....	3	-30.....	4 3/4
-10.....	3 3/4	-40.....	5 1/4

In outlying areas, the best fire prevention is preparedness!

LETTERS TO THE EDITOR

Honolulu, Hawaii, May 2, 1952

Dear Mrs. Semmler:

I thought you might be interested in knowing that I am visiting friends in Hawaii.

Arrived here by plane early morning of May 1st which is Lei Day when they have a festival of flowers.

We attended two grade school May Day programs the morning we landed and in the afternoon a festival and crowning Queen of May Day at the University of Hawaii amphitheater.

I have never seen anything so beautiful. We had smooth trip over.

Today we had lunch at Waikiki Beach and watched the broadcast of the Radio program "Hawaii Calls" which is heard all over the world. Even behind the Iron Curtain. Certainly was very interesting.

The Island is beautiful at this time of year. So many beautiful flowers blooming. It is truly the Enchanted Isle—far beyond my expectations and they tell me I have much more to see.

We expect to be here until May 17th when we sail back on the S. S. Lurline arriving on the mainland at Los Angeles, thence to Phoenix by train.

On June 1st I will leave Phoenix for home, visiting George in Arkansas on my way.

Hoping you are enjoying nice weather—

Very Sincerely,

Mrs. Jessie M. Koeller.

Editor's Note: We will be happy to run the letter sent to us this week if the writer who signed it, "A Newcomer" will please identify them selves to us. We cannot publish any article without knowing the writer's identification, even tho his name does not appear in the published article, and is never revealed otherwise.
